

Category		Description
Scope1		(1) Energy consumption x emission intensity (IDEAv2) (2) Energy consumption x emission intensity (Ministry of the Environment_ "Emission Intensity Ver3.1") Gasoline used in vehicles is covered. Calculations are mainly based on (1) (energy consumption), but for items that are difficult to determine in terms of consumption, calculations are based on (2) (energy consumption amount).
Scope2		Energy Consumption x Emission Unit (Ministry of the Environment_ "List of Emission Factors by Electric Utility") Electricity consumption generated at business sites is covered.
Scope3 (upstream)	Category1	Products and services purchased Energy consumption x emission intensity (IDEAv2) This covers products, various outsourced work fees, equipment, etc.
	Category2	Capital goods Energy use x emission intensity (IDEAv2) This covers building fixtures, furniture and fittings, etc.
	Category3	Not included in Scope 1 and 2 Fuel and energy activities Not applicable (because there is no applicable matter in our group).
	Category4	Transportation, delivery (upstream) Not included in the scope of this report. (Because it is difficult to ascertain at this time and the impact is deemed to be minor.)
	Category5	Waste from business Not included in the scope of this report. (Because it is difficult to ascertain at this time and the impact is deemed to be minor.)
	Category6	Business trip Energy consumption x emission intensity (Ministry of the Environment_ "Emission Intensity Ver3.1") This covers travel by air, train, cab, and bus.
	Category7	Employer commuting Energy consumption x emission intensity (Ministry of the Environment_ "Emission Intensity Ver3.1") This covers commuting by train and bus. Emissions from commuting by car are included in Scope 1.
	Category8	Leased assets (upstream) Not included in the scope of this report. (Because it is difficult to ascertain at this time and the impact is deemed to be minor.)
Scope3 (downstream)	Category9	Transportation, delivery (downstream) Not applicable (because there is no applicable matter in our group).
	Category10	Processing of sold products Not applicable (because there is no applicable matter in our group).
	Category11	Use of products sold Assumed useful life of product x annual energy consumption x number of units sold x emissions intensity. The above data covers PCs and printers sold by the Company.
	Category12	Disposal of sold products Not included in the scope of this report. (Because it is difficult to ascertain at this time and the impact is deemed to be minor.)
	Category13	Leased assets (downstream) Not applicable (because there is no applicable matter in our group).
	Category14	Franchisee Not applicable (because there is no applicable matter in our group).
	Category15	Investment Not included in the scope of this report. (Because it is difficult to ascertain at this time and the impact is deemed to be minor.)
